

REMARKS

The Examiner indicates that the application appears to claim priority to the wrong application. The declaration filed September 10, 2002 listed the correct filing date of October 24, 2001 for the priority document, but contained a clerical error in listing the priority document as Serial No. 09/054,736 instead of 10/054,736. Applicant submits a substitute declaration under 37 CFR §1.67 herewith. The supplemental declaration corrects the clerical error and is signed by all the inventors. The specification has also been amended to provide the serial number of the priority application. The priority claim has further been amended to claim priority of the parent (x5) application.

The specification has been amended to correct typographical errors.

Fig. 18A has been deleted.

Claims 1-37 remain pending in the application.

The claims are rejected in various combinations under 35 U.S.C. §102(b) based on Reiley et al. U.S. 6,248,110 and under 35 U.S.C. §103(a) based on Reiley et al. U.S. 2001/0049531 in view of Reiley et al. U.S. 2002/0183778. Applicant's claim of priority eliminates the cited references as prior art as to the instant application.

Applicant believes the case is now in condition for allowance. Allowance of claims 1-37 is respectfully requested.

Respectfully Submitted,
